Du Verre The Hardware Co.'s **Offset** collection of cabinet hardware was designed by Erin Adams. Made of recycled aluminum, the knobs and pulls come in four finishes: antique brass, polished chrome, oil-rubbed bronze, and matte black. Five sizes are available: 1 1/2" square, 2 1/2" wide by 2 1/2" long, 3/4" wide by 5" long, and 2 1/2" wide by 5" long—all by 1 1/4" deep—as well as 1" wide by 12" long by 1 3/8" deep. duverre.com • Circle 131

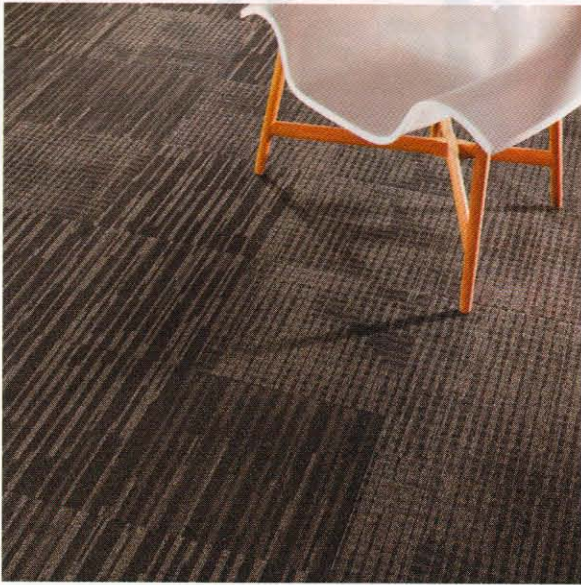

Durkan, the hospitality brand of the Mohawk Group, has introduced **TriOmbre**, a tufted broadloom carpet collection. The new line uses a proprietary method of layering a pattern with ombre color variations on a textured cut and loop foundation. It comes in 12 patterns and 10 colorways with 36-ounce weight. The line comes with HPS backing. TriOmbre has lower minimums than traditional custom orders, allowing specifiers to be more flexible in their designs. Suitable applications include hotel lobbies and corridors, guest rooms, ballrooms, casinos, and areas of assisted living facilities. durkan.com • Circle 132

The **Tune Collection** from Davis Furniture Co. is made up of three configurations: a complete modular system, freestanding meeting tables with cross bases, and straight conferencing for boardrooms. Standard woods are oak, walnut, and zebrano veneers in various finishes; a leather inlay, which can be used to hide power or data units, is optional. All tables come with wire-management trays integrated into the understructure of the table; cables are fed through a magnetic cover that may be placed on any table leg to reach floor outlets. www.davisfurniture.com • Circle 133

The **Grand Tour** is part of Hunter Douglas Hospitality's Evans & Brown Ampersand Collection and includes three patterns: Silver Screen, Metamorphosis, and Nomadic Passage. Designed by mural artists Mark Evans and Charley Brown, the patterns incorporate motifs from world cultures. Created for hospitality upholstery, drapery, printed roller shade, and top-of-bed-designs, the collection includes a range of design and color options. In-house fabrication of drapery and bedding is available. The Grand Tour is the fourth and last addition to the Ampersand collection. hunterdouglashospitality.com • Circle 134

Culina, a semi-professional faucet from Blanco, has a flexible steel-spring spout that provides maximum free range, and a dual spray and coil that snap back into position when not needed. Its streamlined closed coil is designed to be easy to clean. Offered in polished chrome or stainless steel, it is made of solid brass with a ceramic disc cartridge and is lead free. Culina measures 22" high and has a 8 5/8" reach and 2 1/5-gallon-per-minute flow rate. It can be installed in a 1 3/8" hole. blancoamerica.com • Circle 135

Hanwha Surfaces now offers 11 new colors in its **HanStone Quartz** product line. The new colors include pewter, a gray surface with golden tones; seaside, a beige with white marbling; sand dune, a light beige with flecks in warm tones; Sahara (shown), a taupe with gold accents; English toffee, a tan with cream and beige; Indian pearl, a mixture of cream and charcoal with plum; Ajanta, a cool gray with pearl and translucent flecks; blackburn, a deep surface embedded with charcoal and cream; and Sabbia, a marbled surface with beige and cream tones. hanwhasurfaces.com • Circle 136

Milliken Contract's floor covering group has expanded its **Southern Analog** collection with four new designs (Voltage, Pinhole, Fish Eye, and Double Exposure) that are more subdued than the collection's other offerings. Designed as a complement to the existing line's bold colors and patterns, the new designs are inspired by nature, including sun flares, ripples in still water, and mirages. Southern Analog is a tufted, textured loop made with 42% pre-consumer recycled content. It is backed with the company's PVC-Free Underscore ES cushion. The modular carpet collection is available in 19.7" square tiles. millikencontract.com • Circle 155

Roda by Basco is a collection of shower enclosures in eight different styles. Geolux features a geometric profile and solid hardware. Vonse has a wavelike shape, while Rolaire is more architectural. Evo provides an industrial and urban look, Celesta is streamlined, and Dresden has the most minimal design. Tresor is more traditional with enhanced accents, and Preceria is elliptical with solid, curvilinear hardware. The heavy glass shower enclosures come in several configurations, including swing and French door, splash panel, door and inline panel, and fixed panel slider. Fourteen hardware finish options are available. rodabybasco.com • Circle 156

Bending Earth from Bigelow, a brand of the Mohawk Group, is a commercial modular carpet collection inspired by science, technology, and modern architecture. The collection's four patterns (Datum, Caliber, Spatial, Sector) come in 11 colorways. Bending Earth is CRI Green Label Plus and NSF 140 Gold certified, its adhesives are low VOC, and it is part of the company's ReCover program. The collection is backed by UltraSete RC, a five-layer backing system that contains 35% recycled content. The solution-dyed carpet comes in 12"-square and 24"-square tiles. bigelowcommercial.com • Circle 157

The **ios 54 basin** from Victoria + Albert has a compact footprint under 2' long. Part of the space-saving ios collection that also includes a freestanding bath and another basin, it is made of Englishcast (a finely ground volcanic limestone mixed with resin) and has a white finish. An alternative to cast iron and acrylic, the material doesn't crack or flex and the basin can be installed as a stand-alone or a vanity side-by-side. Each 5" tall by 21 1/4" basin is finished by hand. vandabaths.com • Circle 158

Poggenpohl has released a new **drawer and pull-out** design for its kitchen collections. Now all of the company's cabinetry will feature drawers and pull-outs with sides that are of equal 8mm-thickness and that meet the base at right angles. All models are available with assisted opening and pull-outs with optional integrated LED lighting that is automatically activated upon opening. The company also offers two organization systems for its drawers and pull-outs (one a modular box system with inserts in walnut or maple, shown), and the other a system of modules with variable cross-bars in aluminum or walnut). poggenpohl.com • Circle 159

The Stow Company's **Forterra** Panels are made with recycled materials. The cell-structured panels achieve surfaces spanning up to 60" long (without interruption) and 2" thick and can be used for light commercial or residential applications such as custom closet organization systems, bookshelf units, and desks. The panels are scratch- and moisture-resistant and are offered in a range of finishes including a wood grain texture. thestowcompany.com/forterra • Circle 161
