## VICTORIA + ALBERT LTD LAUNCH THE BARCELONA COLLECTION

**Victoria + Albert Ltd**  
[www.vandabaths.com](http://www.vandabaths.com)

Barcelona bathtub.

British bathroom specialist Victoria + Albert launched their latest bath and basin collection, the Barcelona, at ISH Frankfurt.

Organic beauty is at the centre of the Barcelona's design concept. The collection was inspired by the city's distinctive urban landscape, world famous for its elegant curves and natural forms created by prominent architects such as Gaudi.

Beautifully pebble-shaped, the 1800 mm long double-ended Barcelona bath is deeper than the company's award winning Napoli bath and is perfect for two people to share. The 640mm long Barcelona countertop basin shares the bath's naturally white finish and can be installed on its own or in a pair.

Together, their flowing curves, symmetry and rimless design, generate a sense of calm to both contemporary and transitional bathrooms. Being made of hand finished Quarrycast®, Victoria + Albert's own volcanic limestone-rich material, the collection also offers physical peace of mind by being easy to clean, warm to the touch and highly durable.

## VITRA'S NEW BATHROOM COLLECTION AT ISH

**Vitra**  
[www.uk.vitra.com.tr](http://www.uk.vitra.com.tr)

Vitra introduced its new bathroom collections at the recent ISH trade fair. Its new T4 series is minimalist in style, but maximum in function. Hiding a wealth of smart solutions behind its pure forms, T4 brings timeless elegance to the contemporary bathroom.

T4 was created to transform the bathroom into an oasis of rest and wellbeing. It integrates the four product groups essential for a coordinated bathroom décor.

Graceful and hygienic ceramic sanitaryware products, luxurious acrylic bathtubs, attractively styled water-saving faucets, and spacious furniture designed for uncompromising comfort are the new total bathroom.

T4 designed by the Noa design group is offered in a range of sizes and forms designed to complement one another

T4 series.

in widely different combinations tailored to the individual user. It achieves a unique balance between elegance and simplicity, and develops clear and functional solutions exclusive to the series.
