# What's Cool Everywhere Else

The Cape Anne bathroom faucet collection from **Danze** offers a blend of high style, modest scale and affordability and is suitable for powder rooms and smaller-sized bathrooms. The collection is available in several product choices, including two-handle center-set, widespread and Roman tub with personal side sprays, tub/shower options and pressure-balance valve trim kits. Each product is available in chrome, brushed nickel and tumbled bronze finishes.

**Circle No. 211**

**WAC Lighting's** new Madison cracked-glass, low-voltage, LED pendant operates on a 12-volt system and uses 5.6 watts while delivering 360 lumens. Madison features a color-rendering index of 85 and is suspended from a Quick Adjust canopy with an aircraft cable that can be custom shortened by hand in the field. Hardware finishes include brushed nickel, chrome and dark bronze, and the pendant measures 11.75-in. x 3.75-in. **Circle No. 212**

**Pyrolave** offers new integrated sink/countertop options in a palette of 32 colors, and custom colors can also be created. Available in a single or a double bowl, the lava stone designs are customizable in size and counter length and maintain consistent color throughout the product.

**Circle No. 213**

**Bellavita Tile** introduces Cashmere, a mixed-width and length glass mosaic tile collection that can reflect light in a variety of ways. Its hand-screened design offers a linear appearance, and it is offered in four nature-inspired colors: mountain lion (shown), Arctic fox, timber wolf and Alaskan malamute. The mosaic sheets are mesh-mounted in a 12-in. x 16-in. format. **Circle No. 214**

**Bellwood Bronze Ultra-Strand Bamboo** flooring from **Lumber Liquidators** features tans and deep chocolate tones and is crafted using the company's ThermO2 process for greater durability and richer coloring. Bamboo is a sustainable material because its root system continually grows underground and replenishes itself naturally, and all Bellwood floors come with a certified, 100-year, transferable warranty. **Circle No. 215**

**NanaWall Systems** manufactures opening glass walls, which are designed to be a seamless transition between the indoors and outdoors and are built to last. The glass wall systems feature multi-point locking entry doors; tamper-resistant, dual-locking rods between panels; and built-in adjustment and compensation points. The company offers thermally broken, aluminum-framed, single-track sliding systems; aluminum-framed folding systems; and thermally broken, aluminum-framed folding systems. **Circle No. 216**

The Perception mirrored medicine cabinet from **Villeroy & Boch** combines European style with American practicality and uses energy-saving LED lights. Its universal and flexible design features tempered glass shelves, deep frames for increased storage and a non-reflective finish behind the shelves. Perception offers mirrored doors inside and out, features an all-aluminum frame with a surface-mounted installation feature and is available in two sizes. **Circle No. 219**

**GE's** new wall ovens feature True European Convection with Direct Air technology. Vents on top of the oven cavity focus air directly on the food, providing increased airflow and improved cooking performance, and the oven's fans can reverse in direction and operate at multiple speeds. GE's new mobile app offers the freedom for users to control their oven through Wi-Fi technology; they can preheat, set a timer, change the temperature or cooking function and check the cooking status. **Circle No. 217**

Absolute tile from **Ceracasa** features a high-gloss-polished finish that imitates semi-precious stone and is available in subtle colors. The result is a luxurious product that is less expensive to make. Pieces do not repeat themselves in the tile, and its large formats provide spaciousness. Absolute can be used as a floor or a wall tile and is available in ice, sand, vision, ambar, jungle and deep colors. **Circle No. 218**

The Axel Bath Collection from **Atlas Homewares** offers the same luxurious, crisp, fresh feel of bathrooms in four-star hotels. It is available in polished chrome and brushed nickel finishes and includes hooks, towel bars and racks, hand towel holders and paper holders, with retail prices ranging from \$39 to \$269. **Circle No. 220**

PRODUCTS

**Mediterranea's** new porcelain tile series, Forum, offers the look of classic, vein-cut travertine through the company's Dynamic HD Imaging design technology. Made in a 12-in. x 24-in. format, the series is available in silver and cappuccino shades, as well as in 1-in. x 2-in. mosaic sheets. **Circle No. 228**

The Bizu collection of contemporary-classic LED metal pendants from **d'ac Lighting** was designed by artisan furniture designer Mary Helen Pratte. Designed to be energy efficient, the pendants offer long operating lives, require minimal maintenance and feature smooth surfaces and tapered designs. Suspended by a three-conductor cable for easy field adjustability, the pendants are available in spun aluminum shades in a choice of brushed or polished aluminum finishes or a selection of baked enamel finishes. Solid copper shades are available in lacquered or non-lacquered polished or brushed finishes. **Circle No. 229**

The Muse one-piece toilet from **Icera USA** is available in white, biscuit and black, as well as a variety of metal finish options. MUSE features the company's Hyperion flushing technology, which makes it 30 to 50 percent more efficient than most other toilets. Its skirted trapway makes cleaning easy, and it can be installed over existing floorboards during a remodel. Its flush mechanism is quiet, and the toilet offers precision-rim jets; a large water spot; and a MicroGlaze non-staining, anti-microbial finish. **Circle No. 230**

Circle No. 16

The St. Lyon tub from **The Bath Works** dates back to 1860 in France and has been updated for today's modern home. The new design was cast using a traditional sand-casting technique that pours an aluminum-based alloy, which is slightly lighter than iron and offers better thermal properties. The interior features a slow-baked, glossy, enamel coating that replicates the original porcelain interior. The St. Lyon tub offers a thin lip, as well as a base with an outer protrusion that allows the addition of a wooden plinth. **Circle No. 231**

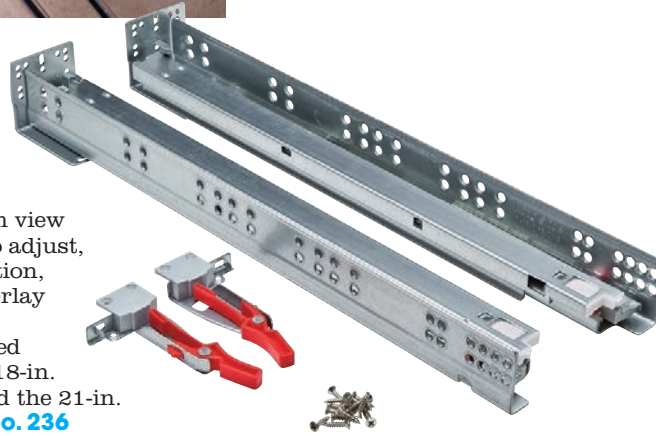

The Quick Drain Linear Drain System from **Quick Drain USA** offers a low-profile, barrier-free design. The channel drains measure 1.5-in. wide, and the systems provide a one-way slope in the shower that provides a uniform surface for the design and installation of any surfacing material, including tiles, stone slabs and solid surfacing material. The drains can be placed in the threshold or the wall and can be used as a barrier to prevent unwanted water on the floor. Strainer patterns include dots, horizontal, vertical, waves, diagonal and tile-in/hidden drain (pictured). **Circle No. 235**

The Electronica collection of digital faucets from **Blu Bathworks** replaces the mechanical operation with a simple touch-control digital interface and is available to fit a basin, tub or shower. In-wall and deck-mount options are offered, and the collection is available in a polished chrome finish and is CalGreen and AB1953 compliant. Its digital interface can be preset for the preferred combination of temperature, flow rate and duration, which improves the customer experience and promotes water efficiency. **Circle No. 237**

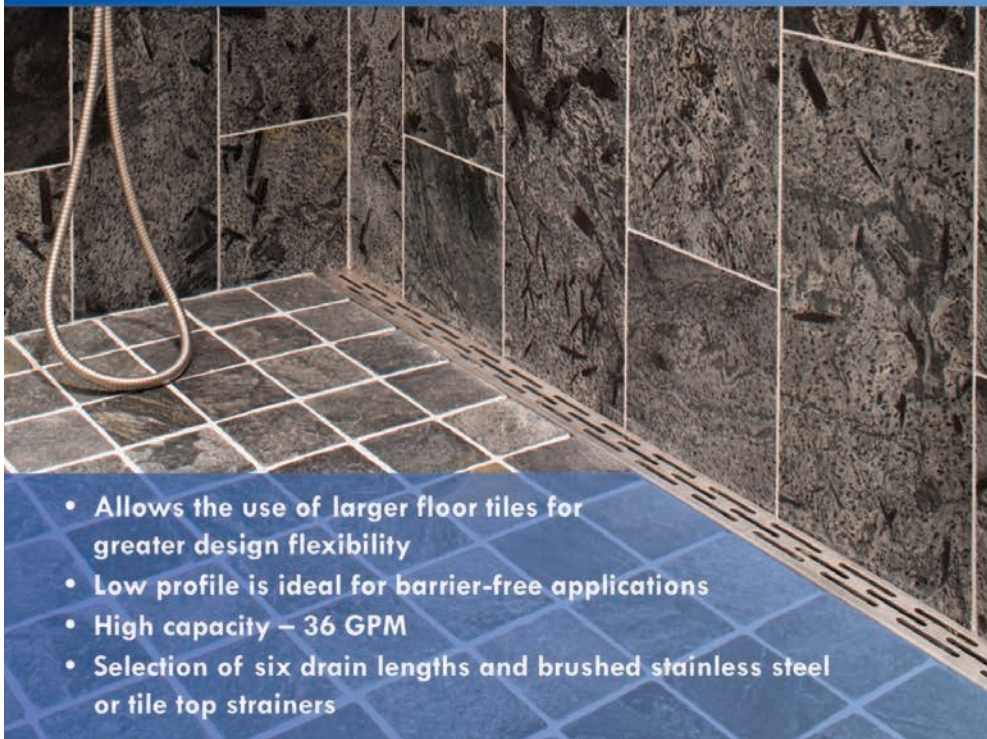

**Rockler Woodworking and Hardware**

has introduced push-to-open, soft-close King Drawer Slides that do not require electrical power. The slides mount to the undersides of drawers and are hidden from view once installed. They are easy to adjust, offer galvanized steel construction, can be installed for inset or overlay applications, and the soft-close mechanism holds drawers closed when they are not in use. The 18-in. slides retail for \$73.99/pair, and the 21-in. slides are \$76.99/pair. **Circle No. 236**

# Simplified Style

Enjoy Greater Creativity in Shower & Steam Room Design with FreeStyle Linear Drains™

- Allows the use of larger floor tiles for greater design flexibility
- Low profile is ideal for barrier-free applications
- High capacity – 36 GPM
- Selection of six drain lengths and brushed stainless steel or tile top strainers

Patent Pending U.S. and Patent Pending EP Publication No. 2354339
