Surfaces & Exteriors

1

1 Surfaces Glass Tile Collection

The Metallika glass tile collection from Surfaces Inc. combines the appearance of pure aluminum transformed in patterns and color combinations with stone and glass. The collection is offered in a 12- by 13-inch sheet on a pure aluminum linear pattern and 12- by 12-inch sheets mixed with glass and stone in 1- by 1-inch chips.

2

2 Indoor and Outdoor Glass Tabletops

Made from 100 percent recyclable glass, ThinkGlass Tabletops are cast in a single piece, so there are no cracks or weaknesses and at a minimum of 1.5-inches thick, the glass is as hard as stone. A textured finish of the glass tops hides fingerprints, smudges, and stains. The tabletops are available in a variety of design or custom options.

3 AirStone Ultra-Light Veneer

These ultra-light wall stone veneers from Baton can be installed using only pre-mixed adhesive, a putty knife, and a hacksaw. The individual stone pieces fit precisely together so grouting is not required and they adhere directly onto any wall or fireplace. They are comprised of a proprietary formula, which makes them 75 percent lighter than real stone and 50 percent lighter than manufactured concrete stone. The AirStone product line comes in the grey tinted Spring Creek color as well as a brown tinted Autumn Mountain color.

4 Perennial Wood Porch Flooring

Eastman's Perennial Wood porch flooring is real wood tongue-and-groove porch flooring. The wood is modified to resist change from moisture and is made to last longer than regular wood. Uncoated profiles come in two different widths and in 8- and 10-foot lengths.

5 Invisible Wall Repairs by Homax

Quick textured wall repairs are now possible using the Homax oil-based Pro Grade Wall Texture for punch-list repairs, patches, and small remodeling projects. With a drying time of only five minutes, it is also tinted for better visibility during application. A pattern control dial and pressure adjustment toggle allows users to match a wide range of texture patterns, delivering an invisible repair.
