WINBATH & KITCHEN

Locally owned, years of Experience. "WinBath & Kitchen" is a division of Riverside Winnelson Co, a plumbing wholesale company that has been in the business in San Bernardino and Riverside County since 1993.

Riverside Winnelson Co. is one of the 500 locally owned and operated Win Companies. At more than 5000 square feet, "Winbath & Kitchen" is a space dedicated to high-end decorative plumbing products. There are numerous working displays, including a steam room, five working air/whirlpool bath tub, five complete shower systems, working faucet and vanity set-ups, among a walk-in tub and other beautiful displays. We pride ourselves on our wide selection of styles from traditional to contemporary, which provides a visual experience for the clients desiring any type of design.

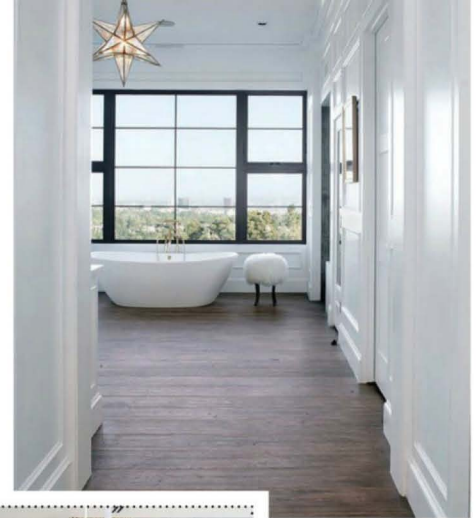

Further, since trends are constantly changing, so are our displays. Keeping up with current styles is an important part of design that we recognize and make an effort to relay to clients.

Our staff consists of experienced and knowledgeable sales consultants who take part in product knowledge classes regularly in order to stay updated on the products we sell. Since building relationships is of utmost importance when it comes to creating living spaces for clients, customer service is a prominent practice among our sales consultants. They apply their knowledge and experience in the industry to teach clients what they need and want to know, making their bathroom and kitchen selections a smooth process.

"Winbath & Kitchen" is managed by Lorena Garcia who has over 20 years of experience in the plumbing industry. Kimberly Kordell and Michelle DeLeon are sales consultants, both of whom have a lot of expertise in the industry. Ojay Galvez is a great support to our Sales Team and ensures that things run as smooth as possible.

The President of the company is Christopher Cappetta who has been with the company for over 15 years. He lives in the Riverside area.

In 2003 we felt that there was a need for an upscale Bath and Kitchen Showroom in the Inland Empire. Many manufactures were skeptical of the endeavor saying it would not be successful as there were not enough people looking to upgrade their kitchen or bath to support the showroom. 13 years later, "Winbath & Kitchen is still going strong."

Keeping up with current styles is an important part of design that we recognize and make an effort to relay to clients.
