Bemis Introduces the TOP-TITE STA-TITE System

Bemis introduces the new TOP-TITE STA-TITE® Seat Fastening System™. This revolutionary fastening system incorporates two components: A molded bushing fills the mounting holes in the toilet, eliminating the bolt's ability to move around. The TOP-TITE STA-TITE® bolt shears off from the top when the proper tightness is reached, no more guessing if the toilet seat has been tightened enough. Both of these innovative components work together to prevent toilet seats from coming loose, solving the #1 complaint about toilet seats. The seat also has 3/8" adjustability to ensure a perfect fit between the toilet bowl and the seat.

Saniflo Offers New Redesigned Sanibest Pro

The redesigned Sanibest Pro is the industry's first and only one-horsepower, grinder pump system — with 25 percent more power than the previous generation. With this technology, there is no need to blast through concrete or dig up flooring to install piping and drainage — enabling home and business owners to confidently add a complete modern bathroom wherever it is impossible or cost-prohibitive to do so with conventional plumbing. In addition, the indus-

try's most powerful grinder pump now offers ready access to the internal workings of the unit, greatly simplifying service work.

Steamist Expands Total Sense Home Spa Collection

Since 2009, the Steamist® Total Sense™ Home Spa Collection has set the standard for taking the luxury and benefits of a home steam shower to new levels. For 2015, Steamist is adding ShowerSense™ to the Total Sense selection of ChromaSense™, AromaSense™ and AudioSense™ Spa Options. In addition, the Total Sense TSC-450 touchscreen digital control has been re-engineered, with an even more stylish appearance and a striking new graphic display.

Available in Contemporary and Traditional designs, The Steamist TSC-450 control features a new, ultra-thin profile, projecting just 0.4" from the wall, eliminating the need for recessed mounting.

Pfister Adds New Kitchen Faucet to Pfirst Series

Pfister adds a new pull-down kitchen faucet to its value-oriented Pfirst Series. Aimed at multi-family and replacement projects the Pfirst Series has a versatile design that matches any style from traditional to contemporary. Three finish options complement any kitchen décor: Stainless Steel, Chrome and Tuscan Bronze. A 360 degree swivel spout not only ensures maximum maneuverability; it also allows for flexible handle positioning: left, right or front/center. The pull-down spray head features a pause button, which, combined with a very efficient flow-rate of 1.8 gpm can help save over 19% more water than a standard kitchen faucet and meets most state and local water savings requirements. Pfister's newest kitchen faucet is a great option for anyone looking for a very competitively priced high-arc pull-down faucet.

Houzer Introduces Porcela Porcelain Enamel Sink

Houzer's Porcela Porcelain enamel steel sinks provide the perfect splash of color. Porcela sinks also give the high end look and feel of cast iron with a sleek undermount design that's easy to install. Their resilient 16 gauge steel core makes them a lightweight alternative to heavy cast iron sinks. The non-porous, high-gloss surface is double baked at 1500° F making it very difficult to chip, scratch or stain. Porcela enables designers to consider porcelain enamel where they couldn't before — in eight distinctive colors of White, Biscuit, Lemon, Mint, Slate, Espresso, Navy Blue and Black. See the shapes and possibilities at www.houzersink.com.

MTI Baths Offers the New Halo Bathtub

The Halo from MTI Baths has it all — sleek good looks paired with a compact design, therapy options and a deep bathing well for full-body immersion. And it's eco-friendly. As part of MTI's popular Boutique Collection, the Halo has a simple circular design with a certain Zen-like quality that is both calming and sophisticated. Measuring 52" x 52" x 26", its relatively small footprint consumes little floor space, making this freestanding tub an ideal choice for rooms where space is at a premium. The Halo offers an exceptional bathing experience with a built-in seat for added comfort and a surprising depth that allows for blissful submersion. Enjoy the Halo as a soaker tub or as an air bath with 20 air jets, a heated blower, and a waterproof remote control.
